

2G/GPRS 3G Real-Time Guard Patrol Systems

GTP-FG-1

Features

- > Fingerprint verification, false attendance forbidden
- > GPRS real-time data transmission, timely data tracking
- > User-programmable item, help you do a good job
- > Engineering plastic shell, double-shot moulding, fully-rugged

Specifications

Reading Method	EM, TI tags	Fingerprint reader	Optic
Display	TFT 2.4 ' High-definition color display	Fingerprint capacity	300pcs
Storage capacity	10,000pcs	Item for each	15pcs
Logical option per item	5pcs	Item character capacity	14 letters
Max Units	250pcs	IP rating	IP 65
Communication	USB/GPRS transmission	Working Temperature	-40℃ to 70℃
Direction	LED+Vibration+LCD+Sounds	Working humidity	30% to 95%
Battery	1350mAh lithium battery	Battery level	5 levels display
Dimension	170mm x 75mm x 40mm	Net weight	270g

1) Online data transmission

Can be customized for 3G, 4G or WiFi transmission

2) Optic Fingerprint Reader

False attendance is forbidden

3) Item Record

User-programmable item, help you do a good job

4) Keyboard

Let guard tour activity more specific

5) Durable USB Port

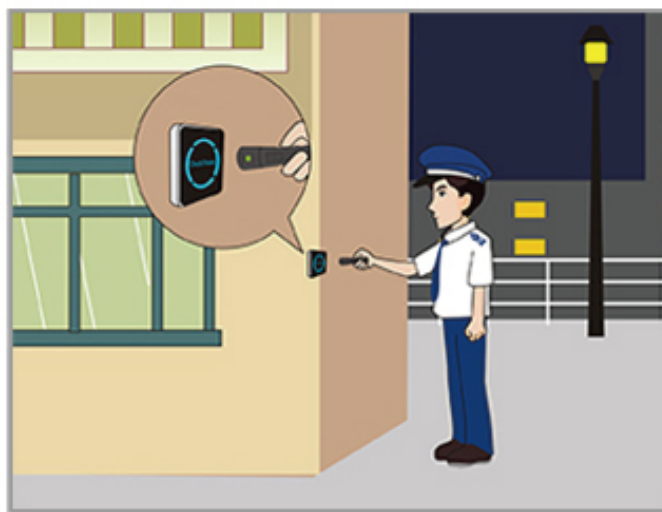

Anti-sabotage gilding pogo pin contacts

INSTALLATION PROCESS

the long time of the peak value of the Input signal will produce clipping output. I not built-in voltage limit limit control circuit, to ensure that in the long time of the peak value of the Input signal will not control circuit, to ensure produce clipping output. A LAX series power amplifier precision amplifier that in
