

Dual Channel Vehicle Loop Detector

PD-220D

Specifications

Working power	AC 220V ±10%	Detection time	35ms
Sensitivity	Ten levels adjustable (0-9 levels)	Working frequency	About 100KHz
Operating temperature	-40C ~+65C	Output method	double relay
Detection channel	Two-way (with direction recognition)	Relative humidity	<90%

Dimensions(mm)

S4A Industrial Co., Limited

Address: 6th Floor, Haotai Industrial Zone, Minzhi road,
Longhua District, Shenzhen. CN 518131
